

**FOR IMMEDIATE RELEASE**

### **LIBERTY UTILITIES WILL CONDUCT A BRIEF AERIAL SURVEY THIS WEEK**

JOPLIN, MO – January 29, 2020 – Liberty Utilities will conduct a brief aerial survey of Company power lines and electrical equipment on Friday, January 31, 2020. The survey is expected to run for approximately four hours but is subject to change based on weather and wind conditions. The flight path will begin in Gentry, Arkansas, and will continue north over Decatur, Gravette, and Noel, ending in Neosho, Missouri. The helicopter tail-number will be N619.

The aerial inspection process uses a low-flying helicopter to survey vegetation, poles, and power lines in Liberty's local electric service territory. The survey focuses on identifying potential problems with electric equipment and nearby vegetation. The process uses a high-resolution infrared imaging system to detect potential equipment issues that may go undetected in a typical visual inspection.

#### **About Liberty Utilities**

Liberty Utilities Co. owns and operates regulated water, wastewater, natural gas and electric transmission and distribution utilities in 13 states and New Brunswick. We deliver responsive and reliable essential services to over 785,000 customers.
